## FLIGHTPATH: Aviation English for pilots and ATCOs

Flightpath is the definitive course for pilots and Air Traffic Control Officers who need an ICAO 4 or high level of English. The course offers a thorough grounding in the range of communication skills needed by both pilots and Air Traffic Control Officers (ATCOs). It focuses first and foremost on pilot-ATCO interactions in both routine and non-routine situations, reflecting both standard radiotelephony phraseology and plain English throughout the course. The level of the course is a B2-C1 course as professionals in this specific field are required to have a highly acquired level of English.

The Flightpath Student's book contains 10 units that are divided into three separate modules: Taking Off, Solving Problems, and Landing. The material in the book has been reviewed by a panel of leading experts in aviation English and flight safety, and is based on real incidents. In addition the book contains review practical use after each module for students to reinforce what they have learned from previous units.

The Flightpath course reflects best practice in the industry and has an innovative safety-first approach. The course book and materials have been written by Philip Shawcross, one of the world's leading Aviation English specialists, thus students are receiving highly qualified materials that will help them succeed in the Aviation Field.
