

## Cambridge English for Nursing

Cambridge English for Nursing is a pre-intermediate to intermediate level course (A2-B1) course that helps healthcare workers, especially nurses learn English in a more efficient way for their field of work. It helps improve communication skills and specialist language knowledge, enabling healthcare professional to work more confidently and effectively.

The Cambridge English for Nursing emphasizes on Listening and Speaking in 8 complete units. The contents in the book includes adminting patients, medical imaging and heling patients with rehabilitation. The authentic activities are based on everyday nursing scenarios, such as helping a patient with meals to completing forms and charts. In addition there is an online section dedicated to advances in medical technology and helps keep nurses up-to-date with the latest equipment and developments.

The authenticity of the materials and course help keep students motivated to improve their English skills for their professional needs. Furthermore, the content of the course ensures that people can communicate effectively in their workplace.

 **A2 - B1**
